PERSONAL VIEW

An Anthology

Since the feature started in 1968 PERSONAL VIEW has been one of the most popular pages of the *B.M.J.* A hundred of these have now been gathered together in an anthology, to which an introduction has been written by a noted PERSONAL VIEW contributor, Dr. Mahadeva of Sri Lanka. The subjects of the views contained in this anthology range from experience of practice all over the world to work as a schoolteacher, the role of music in medicine, learning to be a farmer's wife, and running a fringe event at the Edinburgh Festival.
